PROFESSIONAL PROFILE

Data Engineering and AI-focused Software Engineer specializing in data governance and AI-driven workflows. Proficient user of Claude AI & Claude Code. Background in AWS cloud architecture, with a focus on integrating automation into enterprise data platforms. Professional experience in FP&A & Technical Product Management.

PROFESSIONAL EXPERIENCE

Software Development Engineer | [Utility Data Contractors](#) (Remote) | October 2025 - Present

- Engineered geospatial data pipeline in ArcGIS Enterprise, ingesting and processing utility data at scale
- Developed data service publishing scripts enabling deployment between ArcGIS Online and Enterprise environments

Technical Product Manager | [Capital One](#) | New York, New York | May 2021 - October 2023

- Directed data governance and security roadmap across two agile engineering teams, translating requirements into user stories through sprint planning and backlog grooming
- Partnered with data stewards to design and build a dataset classification workflow and API, assigning AD groups to protect S3 Data Lake resources based on sensitivity indicators (PII/NPI/PCI) and business division ownership
- Managed development of a Python-based SDK enabling engineering teams to securely read/write to S3 Data Lake storage via authorized clients
- Managed AWS Security Token Service that issued encrypted IAM role-based tokens enabling clients to read and write to S3 storage whilst enforcing the principle of least-privilege
- Used Python and SQL to fulfill ad hoc data reporting requests regarding data ingestion and usage logs

Financial Analyst | [The Related Companies](#) | New York, New York | January, 2016 - August, 2017

- Reported capital sourcing for expenditures associated with the construction of Hudson Yards, New York City. Annual project wide requisitioned development costs for 20+ Hudson Yards projects ranged up to \$3B.
- Improved project wide monthly capital call reports for executives and key stakeholders. Focused on working capital management activities, development budget variances, changes in debt/equity stakes, and significant events (acquisitions/closings) associated with HY projects
- Created overhead dashboard in Excel linked to Access. Featured a pivotable view of costs associated with employee budgeted/actual time charged per business unit. Leveraged by development managers to ensure proper business units were being billed by development employees for services rendered
- Tracked cash flows and changes in project capital structures associated with Hudson Yards including development fees, leasing commissions, EB-5 funding, equity investments, credit facility borrowing capacity

Financial Analyst | [Tenaris](#) | Houston, Texas | May 2014 - June 2015

- Reported manufacturing costs (steel, labor, consumables, and maintenance services) of North American Oil Pipe & Coupling Mills. Monthly costs ranged from \$1M to \$10M.
- Leveraged cost model to forecast monthly plant costs by multiplying product demand by standard costs of manufacturing processes. Provided month end analyses to upper management.
- Created macros and queries within MS Excel & MS Access to bridge data from ERP systems [SAP & JDE] to Excel

Asset Management Intern | [Vida Capital](#) (Now Obra) | Austin, Texas | May 2013 - May 2014

- Evaluated Life Settlements contracts for a private equity firm by calculating IRR/NPV based on life expectancy reports, illustrations, and premium schedules
- Serviced a portfolio of 60+ contracts by contacting insurance carriers to retrieve updated values
- Audited portfolio of 100+ life settlement contracts to ensure comprehensive legal documentation

EDUCATION

M.S. Computer Science | [Stevens Institute of Technology](#) | Hoboken, New Jersey | Class of 2021

- Python, SQL, Java, Web Application Development, APIs, Cloud Computing, Operating Systems, Databases

B.A. Economics | [The University of Texas at Austin](#) | Austin, Texas | Class of 2014

- Leadership: [Orientation Advisor](#), [Camp Texas Counselor](#), Sigma Chi Fraternity - Alpha Nu Chapter

High School Diploma | [Glen Rock High School](#) | Glen Rock, New Jersey | Class of 2010

- AP Scholar, SAT Math: 800, Life Scout – [High Adventure - [Philmont](#), [Floodwood](#)], Varsity Baseball

Online Coursework - Certificates and Specializations

- Anthropic - [Claude with the Anthropic API](#), [Model Context Protocol](#)
- AWS - [AWS Certified Solutions Architect – Associate](#)
- Coursera - [[AWS Fundamentals](#), [AWS Certified Security - Specialty](#)]
- IBM - [Data Science Certificate](#), Palo Alto Networks - [Cybersecurity](#) UC San Diego - [Big Data](#)
- University of Michigan - [[Applied Statistics w/Python](#), [Python 3](#), [Python4E](#)]

PERSONAL

Citizen of the United States and Switzerland

Travel - [Chile/Argentina \(via bicycle 2024\)](#), Thailand, Cambodia, Vietnam (via motorbike 2018), Ireland (bicycle)

Interests - Golf, Skiing, Basketball, Cycling, Literature, Music
